

Current Press Release

A Strong Passion for Construction Combined With Stunning Aesthetics. She is changing the World of Commercial Construction & Design.

1 February 2011 -Cataldo Interiors Inc. Saugus, MA 01906

After 20 years in the interior design industry, Jeanette Cataldo has taken on the challenge of showing how any commercial location can be esthetically pleasing without compromising functionality.

Jeanette Cataldo is an accomplished Interior Designer (ASID, IDS, CQRID, and SOMWBA) and a licensed Construction Supervisor (MA#CS103620) who is determined to redefine the construction business with the winning combination of a feminine touch and a hard hat.

Cataldo Interiors Inc. is proud to announce the completion of its latest project; MK Services Incorporated. A precision machine and assembly shop located at 194 South Main Street, Middleton, MA 01949. (Owner Robert Faia).

What began as a 15,000 sq ft drab and antiquated space has become a state of the art building, complete with full machine and assembly shop and several corporate offices. Utilizing a team of over 18 subcontractors - including a General Contractor and Project Supervisor, Cataldo Interiors Inc. managed this project to completion two weeks ahead of schedule - and on budget. The end result was not only functional but exceeded the client's expectations. The chic design and contemporary accents provided an element of style that is often overlooked in industrial construction.

Jeanette believes that every business, whether a machine shop, retail store, corporation, restaurant or industrial building, should combine artistic elegance with optimal functionality. This has proven to be a winning combination for Cataldo Interiors Inc.

From conception to completion; Jeanette Cataldo and her team are truly a breath of fresh air to the construction industry!
